

LED Highbay

The LED Highbay HKD-HB Series is a high-efficiency and durable lighting solution for industrial and commercial spaces, suitable for dusty and humid environments. Using high-quality LED chips and drivers, it delivers over 100 lm/W luminous efficacy and CRI >80, ensuring bright, true-to-life illumination. With a 50,000-hour lifespan and robust die-cast aluminum housing, it offers energy savings, low maintenance, and reliable performance – making it an ideal replacement for traditional HID highbays.
